Disciplined Agile Senior Scrum Master (DASSM) Certification

LEAD YOUR TEAM TO EXCELLENCE WITH DISCIPLINED AGILE

OVERVIEW

Disciplined Agile Senior Scrum Master (DASSM) is a 2-day instructor-led agile course for experienced agile practitioners. This course will teach you how to use the Disciplined Agile (DA) tool kit to optimize how teams work, work with allies within your organization, and solve various advanced agile delivery team problems.

The course combines the Disciplined Agile Mindset with pragmatic decision-making that accelerates your ability to take on more complex initiatives and tailor your way of working (WoW) to achieve agile success in any situation.

WHO WILL BENEFIT FROM THIS COURSE

- Participants who want to learn how to lead one or more agile teams successfully.
- Participants who will be managing high-profile initiatives that are critical to enterprise success.
- Participants looking to take business agility to the next level by applying agile and lean techniques in a wide range of situations, including non-software teams.

DASSM TRAINING AND CERTIFICATION WILL ENABLE YOU TO

- Accelerate your ability to lead high-profile initiatives.
- Develop a comprehensive understanding of the hundreds of practices and strategies contained in the DA tool kit.
- Apply the DA tool kit to guide your team(s) in choosing and evolving your best agile/lean way of working (WoW), letting you get the most from your investment.
- Quickly and effectively use the DA tool kit to solve complex challenges encountered in software delivery and operational teams.
- Learn how to design and implement metrics that measure your improvement.
- Understand how to nurture emotional intelligence.
- Learn how to empower others on your team(s).

COURSE OUTLINE

Lesson 1 – Team development for high-performance teams

Lesson 2 – Emotional intelligence for high-performance teams

Lesson 3 – Tactical scaling in complex situations

Lesson 4 – Optimizing how we work with Disciplined Agile DevOps

Lesson 5 – Optimizing how we work with the Value Stream Layer

Lesson 6 – Coordinating and collaborating across teams

Lesson 7 – Conflict management for high-performance teams

Lesson 8 – Pragmatic planning for agile teams

Lesson 9 – Pragmatic reporting and metrics for agile teams

COURSE PREREQUISITES

- Two years of experience working in an agile team, ideally in a leadership role such as Disciplined Agile Scrum Master, Scrum Master, Product Owner, or Architecture Owner.

- Understanding of the fundamentals of the DA tool kit by having done one or more of the following:

    - Attended the Disciplined Agile Scrum Master (DASM) course
    - Participated in the Basics of Disciplined Agile online course
    - Read section 1, or more, of Choose Your WoW

CERTIFICATION PROCESS AND OTHER CREDITS

- Your exam fee is included in your tuition, and information on scheduling your exam is provided by PMI approximately 2 business days after the workshop.

- You have 30 days to take the exam online after your training is complete. PMI will send you an email confirming your test is available.

- Certification is granted after you pass the exam.

- 14 PDUs
